

Exercise #2 Install & Configure Public Browser

In this exercise you will install and configure the Public Browser.

- **Make sure you logged into the Public profile**

1. Download Public Browser

- a. Open Internet Explorer and go to: <http://teamssoftwaresolutions.com/>.
- b. Click on the **Download** link on the left.
- c. Click on **PWB v2.10 MSI installer for Windows 2000/XP or Newer**.
- d. When the **File Download** dialog box comes up, choose **Save** and save the file to your desktop.
- e. Close Internet Explorer.

2. Install Public Browser

- a. Double-click on the **PWBv2.zip** on the Desktop; a folder called PWBv2 opens.
- b. Double-click on the **Public Web Browser v2.msi** icon; Public Browser Setup Wizard will open. (If you get a Security Warning click **Run**.)
- c. Click **Next**.
- d. Leave the default Folder location, and under “Install Public Web Browser v2 for yourself, or for anyone who uses this computer” leave the radio button on **Everyone**, and click **Next**.
- e. On the **Confirm Installation** screen, click **Next**.
- f. On the **Installation Complete** screen, click **Close**, then close the dialog box.

3. Configure Public Web Browser

- a. Click **Start/All Programs**.
- b. Hover over **TeamSoftwareSolutions**, click on **Public Web Browser Configuration**.
- c. In section **[Browser]**
 - i. Find **RegisteredTo=unregistered**; change to **RegisteredTo=Infopeople**
 - ii. Change **RegistrationNumber=1 24060136 18231524 96EC80 1**
(include the spaces as shown)
 - iii. Change **HomePage=to your actual library website ex:http://www.lapl.org**
 - iv. Change **SearchPage=to whatever search you like ex: http://lii.org**
- d. In section **[Buttons]** (about three-quarters the way down the list)
 - i. Change **Favorites=false**
 - ii. Change **Print=false**
 - iii. Change **PrintPreview=false**
 - iv. Change **WebMail=false**
- e. In section **[MenuItems]** (about 9/10th of the way down the list)
 - i. Change **FilePrintPreview=false**
 - ii. Change **FilePrint=false**
- f. Save these changes (**File/Save**), and close Notepad.

- OVER -

4. **Test Your Configuration** - Open Public Browser (go to **Start, All Programs, TeamSoftware**) and click on the **Search** icon. (*Does it take you to lii.org?*)

Bonus

1. In section [**Overrides**] (about two-thirds the way down the list)
 - a. Change **ExitBrower**=exit
 - b. Change **Logoff**=logoff
 - c. Change **Shutdown**=shutdown
 - d. Change **ResetActivityTime**=resettime
 - e. Change **ResetPrintLimit**=printlimit
2. Try out these overrides.
3. In the early part of this exercise, we asked you to take away all the options to print. Now, go set up an override so that you *could* print something. Test your print override.
