

## **Exercise #2 Defining Needs**

In this exercise your small group will define human needs and look at what services libraries typically provide to meet them.

### **Instructions:**

- A. I will assign you to a special group for this exercise only; be ready to stand up and change to a different table.
  
- B. Choose a recorder to capture the ideas brainstormed by the group. Your recorder will put EACH human need on a separate PINK post-it note.
  
- C. I will ask each group to bring the PINK post-its to the flip chart by level as shown on the Maslow's theory chart handout (on the left side of your packet).
  
- D. For those human needs you brainstormed, choose those that your libraries meet. For EACH one, write the need and the service that meets it on a separate YELLOW post-it note.
  
- E. I will ask each group to bring the YELLOW post-its to the flip chart and stick them on top of the corresponding PINK post-its.
