

Exercise #1

Getting Your del.icio.us Account Working

In this exercise you will log into your del.icio.us account and make sure they are working on your computer in this classroom. This is necessary whenever you use them on a new computer.

A. Delete all cookies in your browser, and make sure your browser will allow you to accept new cookies.

1. In **Internet Explorer**, click on the **Tools** menu, choose **Internet Options**.
2. Under the **General** tab, click on the **Delete Cookies** button.
3. Click the **Privacy** tab at the top of the Internet Options dialog box. In the Settings area, make sure privacy is set at **Medium**.
4. At the bottom of the Internet Options box, click **OK**.

B. Open your del.icio.us account:

1. Go to **del.icio.us**
2. Click on **login** (upper right corner, under search box)
3. Enter the **username** and **password** you used when you created your del.icio.us account and click the **Log In** button.

C. Install browser buttons for del.icio.us:

- a. Click **help** in del.icio.us (upper right corner).
- b. Under **Bookmarking**, find **install the tools for saving bookmarks**, click on **Internet Explorer buttons**
- c. Click on **Install Buttons Now**. Click **Run** and continue through the dialog boxes clicking "Run," "I agree," "Allow," "OK," or whatever it takes to complete the installation. There are slight variations for different versions of IE.
- d. Close and reopen Internet Explorer.
- e. Somewhere in your Internet Explorer toolbars, you should see two new buttons:

To uninstall these buttons in Internet Explorer, you can use your Add or Remove Programs control panel. Alternatively, you can also go to Tools -> Manage Add-ons (within Internet Explorer) and choose "disable" for both "del.icio.us" and "del.icio.us Toolbar Helper."

To uninstall these buttons in Firefox or Mozilla, right click on the buttons and delete them.
