

Exercise #1

Seeing the Boxes

1. Use either one of the CSS gallery Web sites listed below or do a Google search for “CSS gallery.” Go to a CSS gallery and pick a site to look at more closely. Using the space below, make a sketch of the boxes on the page. If you feel comfortable, block in other elements inside the box element, such as headers (H1, H2, etc.) or different fonts.

- CSS Beauty (<http://www.cssbeauty.com/gallery/>)
- CSS Drive (<http://www.cssdrive.com/>)
- CSS Website (<http://www.css-website.com>)
