Color Generators

[Color schemes generator 2](#)

<http://www.wellstyled.com/tools/colorscheme2/index-en.html>

A very easy-to-use site. Simple pick a color scheme and you will be given the hexadecimal codes to go with it.

[Color Palette Generator](#)

<http://jrm.cc/color-palette-generator/>

Upload an image (150k or less) and it will provide a collection of hexadecimal colors to match it.

See <http://jrm.cc/color-palette-generator/index.php?image=rec%2FLandscape-07.jpg&steps=5> for a good example.

[Color Schemer Online](#)

<http://www.colorschemer.com/online.html>

Downloadable software to create a color scheme.

Layout Templates

[CSS Template Generator with Source Code](#)
