

## Exercise #1

### Internet Browsers

In this exercise you will practice creating a lesson plan for teaching Spanish-Speaking patrons how to use Internet browsers.

1. In this exercise you will work individually.
2. Take about 20 minutes to prepare a five-minute lesson *in Spanish* that covers the basic parts of Internet Explorer and how to navigate the web. Use the following resources from your packet:
  - Internet Explorer Quick Guide
  - Training Components handout
  - Lesson Template
3. When told by the instructor, you will take a few minutes to check your lesson against a Lesson Sample which will also be provided by your instructor. In reviewing your lesson do the following:
  - Identify two things you did well
  - Identify two things you could improve
