

## Exercise #1

### Creating a YA Service Plan for Your Library

In this exercise you will identify one area of service and begin creating a service plan.

#### Areas of YA Service:

Management	Programming
Collection Development	Outreach
Technology	Staffing
Teen Spaces	Teen Participation
Collaboration	

1. Choose one area from the list of YA services above that you would like to develop in your library. Circle your choice. If you choose a service that already exists at your library, focus on how you would like to enhance it.
2. Why do you feel this service area is important to offer? What do you want to accomplish in this area? Write down a desired outcome.
3. Name at least two things you can do to achieve the outcome you listed above.
