

## **Exercise #5**

### **Select an E-Content Provider**

In this exercise you will evaluate e-content providers.

**Instructions:** Review the handout on e-book and e-audio providers; use the providers' websites, and select a provider that your library can offer to users.

#### **A. Review the handout on e-book providers.**

1. Look at the formats, functionality, content, and ownership models available from various providers.
2. Identify two or three providers that seems to be the best fit for your library.
3. Use the class bookmarks to look at your chosen providers' websites. See what you can find out to help you decide what providers you would like to use. You may need to see sample MARC records, sample usage reports, a trial, list of titles, etc.
4. Take notes below on what you like or don't like about your chosen providers.
