

Exercise #5

Reworking Your Training Plan

Instructions: Using the training program you prepared for the class and discussed with your group, rethink the training with Web 2.0 ideals and tools in mind. Consider the following:

1. What Web 2.0 ideals will be useful for your training need to be addressed?

2. What tool discussed today would best fit into your training?

3. What resources, people and technology, would be needed to implement this tool?

4. Will staff need training before using the tool?

5. What additional challenges may be faced by incorporating new technologies?

6. How might you overcome those challenges?
