Rachel Charette:Greetings from Grosse Pointe, Michigan

kim:Kim from GCPL- Snellville

Deborah Feanny:Hello, since you have minors working with power tools, how do you handle liability? Do you have to do anything special about that?

Melinda Kidd:Melinda: From Augusta, AR

Deborah Feanny:thank you

Pat McClary:Pat Mcclary: Hi from the Grosse Pointe Public Library

Eric Hovey:Yes please share the link

Deborah Feanny:Can you share the link to the foundation"?

Ricardo Ramirez:Great!

Kathleen McVey:Hi. Joining late from Meridian, ID

Angie H.:Does it cost to join?

Angie H.:Great! Thank you!

Jodie:What is the best age group for openproccessing?

Eric Hovey:So if we got on openprocessing.org we could use your curriculum or anyone that has posted on it because it is open source?

Deborah Feanny:so this is all on openprocessing.org or on your link in particular?

Deborah Feanny:So you have to go to openprocessing.org and make a free account and then use the p5js code language to do what youa re doing now?

Nikita Hines:Any suggestions for those working with adult learners

Nikita Hines:Thanks

gary:Cool

Deborah Feanny:Did these students have any other experience with coding either with this language or other languages?

Julie Rines:Do you have some suggestions for artworks to use?

Ricardo Ramirez:EXCEPTIONAL WORK!

Nancy giddens:I can't wait for you to finish this instructional book! Thanks for being so generous!

Allyson Goodwin:i see the let's try it slide

Maria Salcido:thank you very much for your work and I can't wait to start using some of it.

Nikita Hines:I see the words, Let's try it.

Mary Lehmer:thank you !

Eric Hovey:I see the Let's try it

Maria Salcido:I see Protocols that help

JeremyR:are you associated code4lib conference in LA? good project to get networked with, expecially out in Cal. https://code4lib.org/

John:is this webinar still going? I can't hear anything, but I see slides

eStrong:yes

Eric Hovey:thank you for sharing everything

Maria Salcido:thank you Sylvia

Terri Carpenter 2:Thank you

Deborah Feanny:how do you decide what coding language to use?

Rhonda Franz:Thank you!

Beth Flerlage:Thanks, Sylvia. Great information.

Deborah Feanny:How do you explain to your participants what code language that they need to learn?

Rachel Charette:This is awesome, thank you!!

Allyson Goodwin:Thank you - I really like the idea of tying the Art with the Science!

Nikki Mushisky:Thank you!

Pat McClary:Amazing. thanks for sharing.

Kathleen McVey:Thanks, Sylvia!

guest 3:Is there a art of coding class for adults?

Nancy giddens:You know what I love about educators? They don't hoard their ideas because they REALLY want everyone to learn all they can! You are a perfect example of this! Thanks, Sylvia.

Deborah Feanny:Is there a resource that matches up coding languages with best use? python for games, p5 for graphics)

Kathleen McVey:@Nancy Giddens- Yes! So generous!

Nikita Hines:Because this code is based in Java Script, is it possible that it may more easily lead to young adult students learning Java?

Ivan Rivera:Python is not only for games

Deborah Feanny:thank you

Ivan Rivera:java script and java they ae 2 different languages

Ivan Rivera:arJavascript is a program that came preinstalled in every computer trought the browsers

Eric Hovey:What is the ratio of male teachers to female teachers with your female students?

Deborah Feanny:Are you planning on doing something similar for boys?

Eric Hovey:Do you find this is easier to have female teachers?

guest 3:Agree with Nancy Giddens. Very generous.

Nikita Hines:Goal is to do this program in person. Is there a limit of students to have participate initially

Nikita Hines:Thanks for that answer. Appreciate it.

guest 3:Thank you.

Maria Salcido:thank you everyone

Deborah Feanny:thank you
