Filter Product Listing

The list of filters listed below is limited to server-based filters or network appliances. Additional information about many of the products listed below can be found at libraryfiltering.org or at the links provided. Information about client-based products can be found at http://kids.getnetwise.org/tools/index.php. For regular updates about issues associated with filtering, please visit Lori Ayre’s weblog “Library Technology Musings” at http://www.galecia.com/weblog/
