11/30/2010 12:52:53 PM from Joshua Brown to All Participants:

## Text Chat from Top Tech Trends for the Non-Technical

Some areas of the country will be unable to use smartphones for several years if ever. As someone said we're turning into a two tiered society and how does the library best serve that especially those of us in tourist towns

11/30/2010 12:56:46 PM from Pepper Tasker to All Participants:

Least common denominator is a big problem with education, as well. We still need to push to expect more from our "students."

11/30/2010 12:57:02 PM from Kim Priest to All Participants:

11/30/2010 12:59:08 PM from Marian Locascio to All Participants:

11/30/2010 12:59:08 PM from Cheryl Stewart to All Participants:

Joan Frye Williams thoughts and insights are thought-provoking, inspiring, surprising, and eye-opening. I, for one, have gotten a great deal out of this webinar and I am going to refer every librarian I know to the archived version!
