

Future Proofing Library Spaces

Future-Proofing Library Spaces

Learn the essentials of making your library environment future-friendly

An Infopeople Webinar
Wednesday May 11, 2016

Technology Vision. Technology Power. Your Library.

<http://www.carsonblock.com>
libraryandtech@gmail.com
@CarsonBlock

Our Purpose

There's no question of whether technology impacts your library—the question is, how does it impact your library now, and how will it change in the future? What can you do at your library to keep up?

How will we do this?

Learn approaches to retrofitting – including “Design Thinking” and Project Management

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Future Proofing Library Spaces

Poll: who is here?

- Public Librarians
- School Librarians
- Special Librarians
- Academic Librarians

Poll: who is here?

- Tiny Libraries
- Small Libraries
- Medium Libraries
- Large Libraries

Handout: *Session Worksheet*

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Introducing Mobile Devices and Design Thinking

Let's start with a buzz-killing acronym...

BYOD

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

While there are several key things we can do to make our libraries mobile friendly....

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Future Proofing Library Spaces

Design
Thinking

Design Thinking

A way to “tackle the unknown” by:

- Learn from People
- Find patterns
- Design Principles
- Make Tangible
- Iterate Relentlessly

<http://upload.wikimedia.org/wikipedia/commons/f/fd/DesignThinking.ogv>

Design Thinking is a tool to help us keep pace with an ever-changing world!

Future Proofing Library Spaces

Discussion
(feel free to share in chat box)

- How is your library like the "inside/outside/online" diagram?
- How might you already be incorporating design thinking into what you do every day?

Inspiration and Assessment

Like beans and rice, bread and butter...

Inspiration: what's possible today & tomorrow?

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Inspiration: **your friends and colleagues**

Inspiration: **everywhere!**

Hint: get outside of the echo chamber...

Activity: Don't forget to use your worksheet to grab inspiration!

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Serving Mobile Users: First Things First

Assessing IT Infrastructure

Having a clear idea of the library's current capacity and capabilities also creates the perfect place to build from if improvements are needed.

IT Considerations

- Capacity of building power
- Internet connections
- Local area networks
- Future needs

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

The **power** circuits serving the building are one of the first things to look at, especially for older libraries.

Power Circuits

- Is power properly grounded?
- Are current circuits adequate or overloaded?
- Are there enough outlets (inside and outside the building)?
- Are there any power issues such as fluctuations or dimming lights?

Although mobile devices do not require large amounts of power to recharge, **having good power available is a prime consideration when serving the needs of mobile users.**

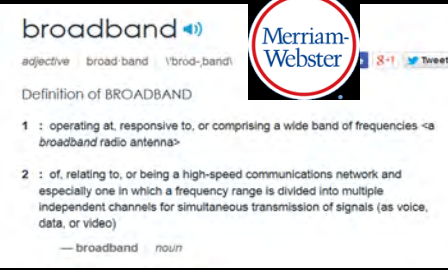

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

For later, after activity: Assess your power!
 This is mostly homework – but do you have any obvious power problems?

Mobile devices need more than power.
How is your Internet Connection?

What is "Broadband?"
It's Fast!

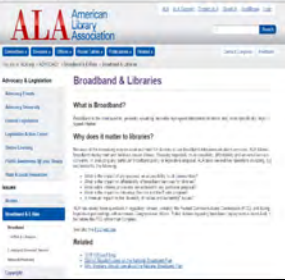

The screenshot shows the Merriam-Webster definition for 'broadband'. It includes the word 'broadband' with a speaker icon, the part of speech 'adjective', and two definitions. Definition 1 refers to a wide band of frequencies in radio antennas. Definition 2 refers to high-speed communications networks. The Merriam-Webster logo is also visible.

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

What is "Broadband?"
It's Fast!

- Broadband is the word used to, generally speaking, describe high-speed telecommunications and, more specifically, high-speed internet.
- In January the FCC determined that a **broadband connection is at least 25 Mb/sec**

Why is broadband desirable?
All those devices are hungry for a network connection – and there are more and more devices every day...

How can I choose the broadband speed for my library?

Two Key Factors:

- What is available in your area? (more on that in a bit)
- What can you afford? (and don't forget E-Rate!)

EDGE Formula Calculator:
[http://
impact.ischool.uw.edu/
calc.html](http://impact.ischool.uw.edu/calc.html)

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

How is speed measured? (And what do you mean by "big pipe" Internet?)

- Bits per second (bps) - sloooooow
- Kilobits per second (kbps) – dial up modem speed
- Megabits per second (Mbps) – "Broadband"
- Gigabits per second (Gbps) – Fast (think the Google Fiber projects in KC, Provo and Austin).

How can I check my speed?

<http://www.speakeasy.net/speedtest/>

<http://www.speedtest.net/>

How much bandwidth (or speed) do we need?
 The answer is always "more."

**MORE
MORE
MORE**

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

What is "Scalability," and why does it matter?

The image shows a screenshot of the Scalable.io website on the left and a blue bucket filled with soil and small green plants on the right. The website text includes: "scalable", "objective: scale up", "easy to make larger, more powerful, etc.", "Send your friends of SCALABLE with our official Word Feeder Tool", "Full Definition of SCALABLE:", "1 : capable of being scaled", "2 : capable of being easily expanded or upgraded on demand via scalable computer networks".

What about WiFi?

What about WiFi?

WiFi access points serve a limited number of users at one time.

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

What about WiFi?

Think “scalability” for mobile users--design for a WiFi network that can easily grow by simply adding inexpensive access points as demand increases.

Making User Spaces Mobile Friendly

Pop-Quiz: Which seats are the most popular in your library?

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Carson's rule for remodels or new construction:

"Any space we provide for a patron to sit, we should also provide safe and convenient access to a power outlet."

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Retrofitting power solutions

Visible surface-mounted power access points built into desks, tables and other furnishings.

Retrofitting power solutions

The lowly power strip – when selected or modified to match the aesthetics and mounted correctly -- can be an inexpensive approach.

USB Power

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Charging Lockers

General Comfort

Design orientation: think like a mobile user.

Are we designing or modifying our spaces with patron comfort and convenience in mind, or just trying to fit the most people in the smallest space possible?

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Solo Computing Spaces: places for solitary work

- Solo computing spaces – places for patron “stuff”
 - Books, purses, backpacks, food and drink (if you allow), etc.
 - Patrons have their own mobile devices! (space and power)

This is also a solo computing area

Solo Computing Spaces: Ideas

- Lounge chairs with swivel tablet arms or portable pull-up tables are nice options.
- Small portable tables are becoming the preferred option since users can adjust the table location to meet their needs, unlike swivel alternatives that attach directly to the chair.

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Large surface areas for personal and shared "stuff"
 Patrons have their own mobile devices! (space and power)

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Homework/comments today:
what needs have you observed from users of mobile technology in your library?

Homework/comments for today:
How might you address those needs in your library?

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

What if you're maxed-out?
What if you can't build?

Inspiration from Schools:
Transition to the Learning
Commons

Re-assess and Re-use

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Assessment – challenges and opportunities

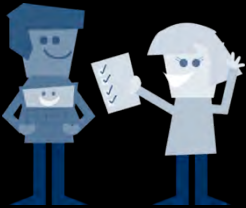

Assessment (different perspectives)

- Staff
- Patrons/Students
- Others

Assess different things

- Tech
- Power
- Physical Spaces
- Workflow
- Others

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Assessment Criteria

- Who does this serve (many or few, well-served already or under-served)?
- How is it staffed? (are any trade-offs in staff time/ effort worthwhile?)
- Is it easy to use or learn for staff and customers?
- **Advanced:** What is the Total Cost of Ownership (TCO)?
- **Advanced:** What is the Return on Investment (ROI)?

$$\text{ROI} = \frac{\text{Gain} - \text{Cost}}{\text{Cost}}$$

Approaching Funding

- Be deliberate
- Use a design process
- Identify the primary objective

Approaching Staffing

- Regular access
- Learning
- Sharing opportunities

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Take Home Activity:
Vision for Your Library

Resources: People, Places, Things

Resources: Energy, Good Will,
Stick-to-it-iveness

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

Activity:
**Getting it done! Working through
 a mini-project plan**

Mini-Project Plan

- Vision/Impact
- A main objective (just one for today)
- A set of tasks
- A timeline or a deadline
- What you need to get the job done
 - Time
 - Money
 - Donations or grants
- How do we know we've been successful (hint: did we accomplish the objective?)

Vision/Impact

- What is your big picture?

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Future Proofing Library Spaces

A main Goal (just for today)

- Describe what you intend to accomplish (SMARTly)

SMART Goals

A set of tasks:

- How will you accomplish your Goal?

Future Proofing Library Spaces

A timeline or deadline:

- How long with this take – or when should it be completed?

What do you need to get the job done?

- Time
- Money
- Donations or grants
- Other

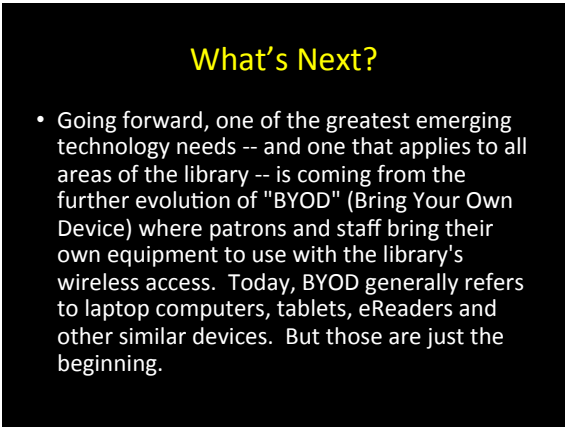

How do we know we've been successful?

- Hint: did we accomplish the objective?

Future Proofing Library Spaces

Infopeople, a grant project of the Califa Group, is supported in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.
