Kathee: Hello from the beautiful Lehigh Valley, PA

Chaunacey: My office has glass doors. Won't a barricade indicate there's someone in the office?

Diana Lopez: Hello from Marin County Free Library (Marin City Branch)

MUSC Library: Have you started?

Chaunacey: Thank you.

Chaunacey: Yes, thank you!

TyeAnn Phillips: Hi from Morgantown WV

Mary Augugliaro - Infopeople: MUSC Library you should be hearing our presenters.

Patricia Clement: No, very clear

carmela L: Hello everyone , from rainy New York

MUSC Library: nope

Taelor - HJ Nugen Public Library: i've not been able to hear anything either. I've tried a different web browsers too. I just called in so I could hear it...

MUSC Library: We heard the music in the beginning very clearly.

Pamela Withrow: Pull the fire alarm?

Denise: do NOT pull the fire alarm! Makes everybody run out, and they all become targets1

Pamela Withrow: Thank you!

Kathie Gladden: How do you recommend we train - with or without patrons involved?

Jana De Brauwere: Person with a disability, walking cane or walking sticks, should they leave them behind as they are exiting the building?

Mark Hall: Is there any cumulation of examples of how people have successfully fought back when trapped? What works against an armed person?

Taelor - HJ Nugen Public Library: yes. i have a wireless set and i tested it with other audio on the computer and i get sounds from everything but this webinar... :/ its ok. the phone is working just fine. :D

Glenna Wisniewski: In other locations Ive worked, many staff members refused to participate in training out of fear. Your thoughts?

jolie hogancamp: we are all open, one meeting room with crash doors. We purchased a large chain, with lock to secure from inside

Pamela Withrow: I had sound, and now I don't. :\

Susan Pieper: <https://www.youtube.com/watch?v=5VcSwejU2D0>

John Farino: I think the guest wanted to know about disabled peoples WALKING STICKS and CANES-- should the person leave these behind?

Susan Pieper: This is the video made by the Houston Sheriff's department regarding Run, Hide, Fight.

Jana De Brauwere: Yes

Jana De Brauwere: do we keave the walking sticks or a cane behind

Patricia Clement: A walking stick or cane could be used as a weapon also

John Farino: Yes, I thank.

Jana De Brauwere: the question was as they are exiting the building they won't be able to put their hands up

John Farino: We have a requirement to try to prevent patrons from driving away so they don't interfere with emergency vehicles coming in. Your thoughts?

Jana De Brauwere: thank you

Patricia Clement: I think the police would recognize that the person was handicapped

John Farino: Yes, thanks.

John Farino: Our patrons would never want to give up their computer time!

Mari Martinez: Are there samples of library active shooter policies that you would share with us?

Mari Martinez: thank you!

Chuck OShea - Infopeople: Any documents we get we will post on the archive page

Chuck OShea - Infopeople: <https://infopeople.org/civicrm/event/info?reset=1&id=624>

Ann L: It would be hard to leave children behind.

John Farino: What are your thoughts on avoiding being accused of "profiling"?

Dianna Martin: Ann, I agree, I couldn't leave a child behind.

Denise: Our children's area only has one exit, the main door. The adult area has 2 others. the workroom has another exit.

Jessica: How do we respond to patrons who may try to be heroes?

Elaine: We were told by our police department that if you are in a secured room, and someone is banging on the door to let them in, that you shouldn't because the shooter may be out there also.

John Farino: It's important to realize that children might hide in fear. Staff should try to look for them to get them out.

Tyliah McDonald: When I think of "Active Shooter" I picture the person with the gun about to enter the building or they are already in the building. What are your thoughts about training for "drive by shooting" or "bystanders near the shooting" scenarios? I do realize that know that there would be a lot of overlap in "Active Shooter" vs. "Drive by Shooting."

kenneth Kugler: So if we are put in a position where we have to fight, we should do it with the intention of not stopping until the shooter is totally incapacitated, right?

John Farino: Regarding pounding on secure door-- how can police indicate that they are legit, if people inside can't see them?

Tyliah McDonald: Thank you

Patricia Clement: As the saying goes, "kill or be Killed"

Terry Dick: Do you involve library volunteers in Active Shooter training?

kenneth Kugler: Thank you.

John Farino: I mean when a threat is over?

Mari Martinez: Thank you, tery. I was going to ask the same thing. Especially, young volunteers.

Maria Villacorta: Could you explain more about signs of potential threats

carmela L: Is there any physical sings or behavior that are generally display in a shooters that we can observed that can alert us of the possibility that a person will be a potential shooter?

John Farino: Absolutely-- we have more volunteeers than staff on duty sometimes.

JayceVogt: I have heard of schools where the proper authority will slide an ID paper under the door.

Kathie Gladden:

John Farino: That's what I mean by "profiling"-- what if you call the PD for suspicious behavior, and the person is not really a threat? Might we be sued?

Donna Ebanks: Donna: I've been told at previous active shooter trainings to never open the door when someone ont eh ohter side is saying they are the police. The thinking is that the police will eventually find you. But to not open the door if you feel you are secure.

Denise: but, do not mix up with open carry policies in your state! Not everyone with a gun is a shooter; now a drawn gun is different!

Maria Villacorta: Yes, thank you

John Farino: Thanks.

John Farino: That is a good point-- DE is open carry, and a group actually meets at one of our libraries.

Dianna Martin: If you're in doubt whether or not it's the police outside the door, call 911 again and they can tell you if it's the police and if the situation is under control or not.

Mari Martinez: There was a patron who had a knife and we asked him to hand it to us while he was inside the library, coincidentally there was a children's program going on. He cooperated but I think we were lucky

Dena Porter: Conceal and carry, for Illinois, bans guns in a public library. But I'm assuming that most criminals are not going to be following that law!

Patricia Clement: Will these resource sites identified in chat and now on my screen be available at the end of this session?

Patricia Clement: Thank you

Chuck OShea - Infopeople: The chat will be there too.

Corinne: Nevada is open carry, and the NRS statute refers only to concealed, which means open carry is legal in the library.

Patricia Clement: I've seen it, it IS scary

Denise: scary is the video about someone hiding guns and magazines on their person! look for hiding an automatic weapon.

Denise: <https://www.youtube.com/watch?v=pl8pNfLgIA8>

Susan Pieper: Thank you.

Pamela Withrow: Thank you very much!
